

RUEZ-systems have proven themselves worldwide for many years in daily use in harsh operating conditions

As development + planning + manufacturing + service are done from our experienced staff, we can respond to your specific needs quickly and flexibly

FILTERING TECHNOLOGY

- Pre-Separator
- Belt filter with and without filtering aid
- Trough belt filter with and without filter aid
- Suction belt filter
- Magnetic- Roller- Filter (Standard or customized)
- Inline- Magnetic - Filter
- Hydrocyclone filter
- Sedimentation container
- Lamella separator/Lamella clarifier
- Precot filter
- Skimmer
- Foreign oil separator
- Special filters

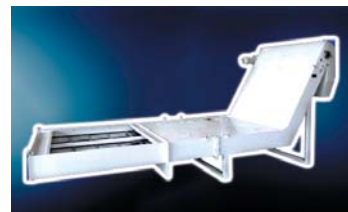

Filter without filtering aid

Filter with filtering aid

Conveyor

Conveyor

Vibrating conveyor

Return pumping station

Container

Lamella separator

TRANSPORTING TECHNOLOGY

- Slat band conveyor
- Scraper conveyor
- Magnetic conveyor
- Screw conveyor
- Plate link conveyor
- Wire belt conveyor
- Chain conveyor
- Rinsing channels
- Vibrating conveyor
- Belt conveyor
- Lifting / tipping units
- Tipping units
- Return pumping station
- Cooling conveyor
- Special conveyor

STORAGE TECHNOLOGY

- Bulk storage**
- Container fixed/mobile
 - Bunker
 - Silo
 - Special container
- Liquid storage**
- Small tanks
 - Central tanks
 - Safety tanks (WHG)
 - Leakage trays
 - Hydraulic tank
 - Special tank

SERVICES

- Measuring and determination of current application data's
- Technological consultations
- Pipework planning
- Assembly and installations
- Start-up
- Initial instruction and training on the job

NOISE PROTECTION

- Free-standing noise protection housings
- Noise protection for components of plants
- Noise protection housings integrated into plants
- Partial encapsulation
- Complete encapsulation

SEPARATION TECHNOLOGY

- Magnetic separator
- Vibrating screen
- Continuous operating
- Centrifuge systems
- Centrifuge systems with batch operation

CRUSHING TECHNOLOGY

- Single shaft shredder
- Two shaft shredder
- Crusher

PLANT ACCESSORIES

- Mixer Unit
- Aerator
- Heating
- Cooling
- Filter aids
- Valves
- Pressure- and flow meter
- Sensors and switches
- Pumps
- Piping
- Level switches
- Switch cabinets with PLC-Control and visualization
- Weighing device

AFTER- SALES- SERVICE

- Production monitoring
- Spare parts supply
- Maintenance
- Modernisation
- Overhauling
- Expansions
- Hotline
- Tele-Service

RUEZ-Centralised plants
 Centralised conveying plants
 Centralised filtering plants
 Centrifuge plants
 High pressure systems
 High pressure booster systems
 Special plants

High pressure booster station

Centrifuges systems

Vibrating screen

Shredder

Centrifuges systems

Skimmer / Level switches

Lifting / tipping units

Special plants

All RUEZ-products can be supplied in stainless steel also!

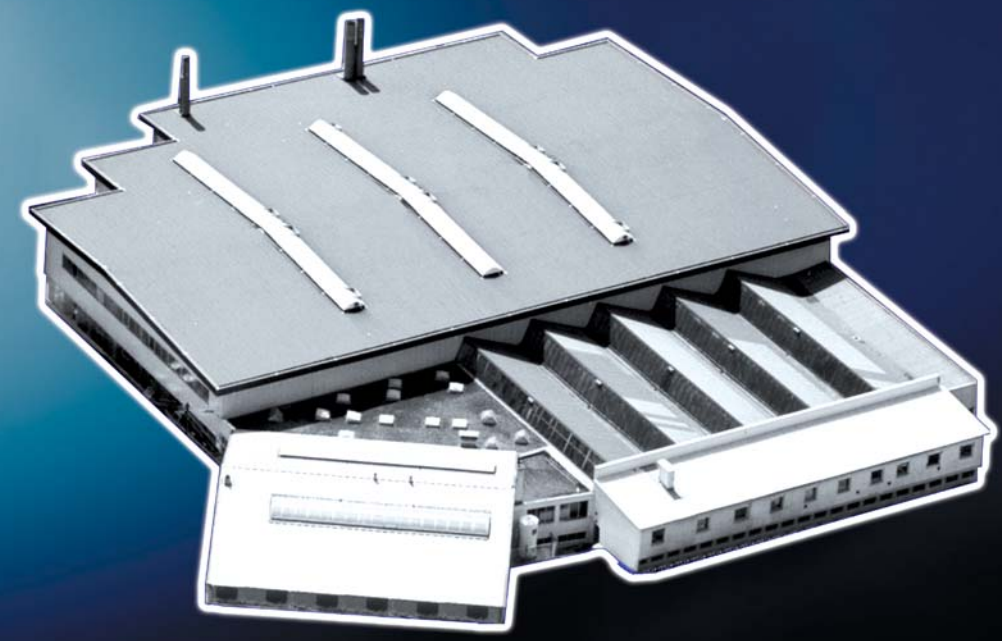

**Quality
without compromise**

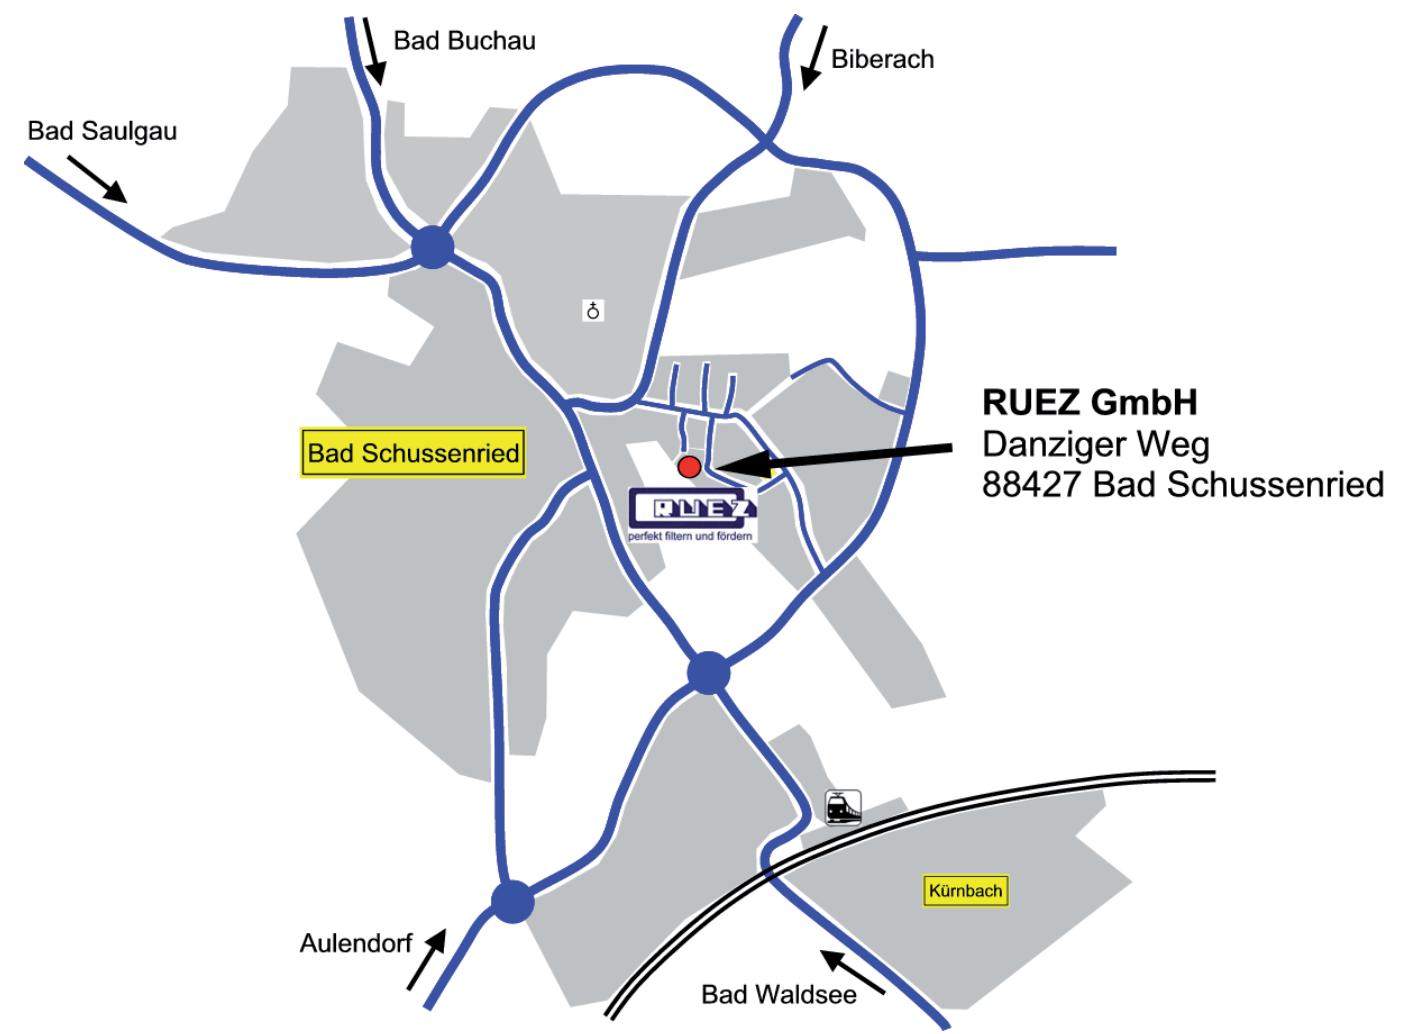

RUEZ contact and directions

Many roads lead to the company RUEZ to Bad Schussenried

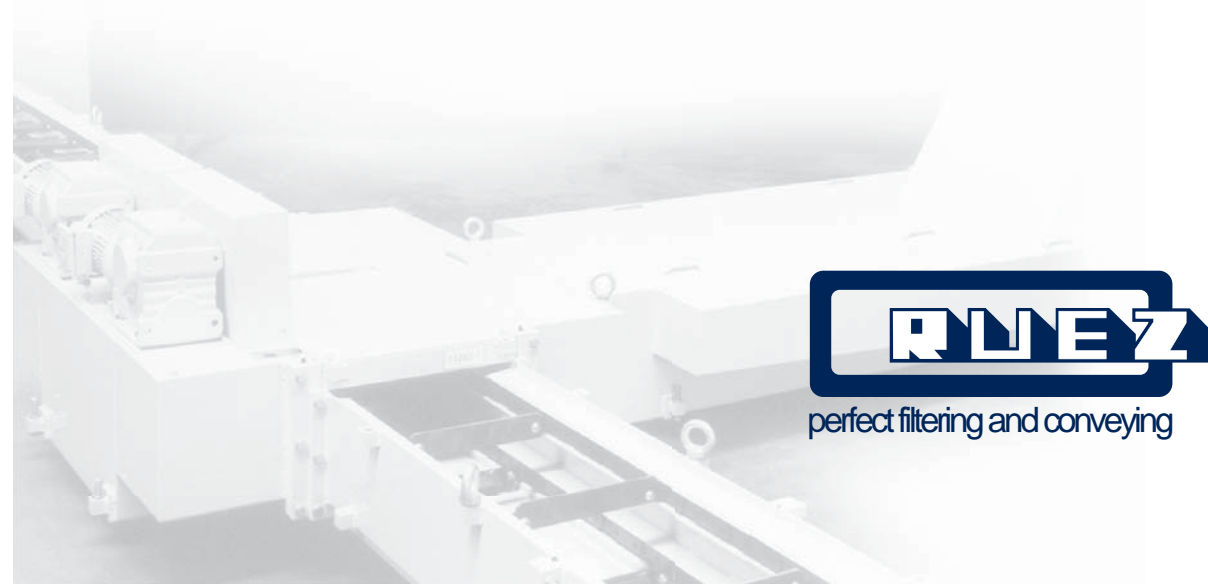

RUEZ GmbH
 Mailing address:
 P.O.-Box 256
 D-88424 Bad Schussenried
 Factory address:
 Danziger Weg
 D-88427 Bad Schussenried

- Filtering Plants**
for the purification of liquids
- Conveyor Plants**
for abrasive bulk and unit load
- High pressure and
Booster station**
of machinery and equipment
- Supply- and Disposal Plants**
for machine
- Centrifugal Plants**
for batch and continuous operation
- Special Plants**
for filtering and transporting technology
